

LNJSA/ Football West

Coaching Education Calendar 2024

A) MINIROOS - GAME LEADER Course

The main role of the Game Leader is to keep the game moving fluently, limit stoppages and assist players with all match restarts. Most importantly, they must make every effort to create an environment that ensures that all players have fun, are learning the game and have maximum involvement.

The Game Leader can be a club official, parent, older child/player or beginner referee and should always be enthusiastic and approachable.

B) MINIROOS Course

The Minirooms Certificate, which uses short, game-based sessions to introduce football to newcomers in an inclusive way.

The 2 hour course, designed for kids aged four to nine years, is fully practical and encourages the coach to develop practices that are safe, fun and enjoyable.

The nation-wide program puts an emphasis on natural development, being active, making life-long friends and potentially unearthing the next generation of Socceroos or Matildas.

No coaching but organising FUN football exercises is the key to helping players build a love for the game.

Another highlight of the course is that the coaches are exposed to basic rules of the game as well as tips and hints on building a football culture in a completely practical setting.

C) SKILL TRAINING COURSE – Skill Acquisition Phase

This course is aimed at coaches training players aged 9-13.

In the Skill Acquisition Phase the coach focuses on assisting players to build technical skills.

The course is conducted over 7 hours, is fully practical and deals with the development of the four functional game skills, being first touch, striking the ball, running with the ball and one-versus-one.

These four core skills make up 95 percent of the actions of outfield players during a game. It is critical to train these actions repeatedly so that players develop the ability to perform them more effectively during a game.

On completion of the course coaches will be asked to complete an online self-assessment form within two weeks of the course finishing. Once this has been completed a certificate will be issued.

D) GAME TRAINING COURSE - Game training phase

For coaches training 13-17-year-old players. In the Game Training Phase, the coach's aim will be the development of tactical awareness, perception and decision making through a game related approach to training.

The course is conducted over 14 hours, is fully practical and provides the coach with training sessions designed to help the players apply the Functional Game Skills in a team setting using the FFA endorsed '1-4-3-3' formation.

E) FOOTBALL WEST WORKSHOP

FW Workshop is designed to upskill coaches in the tactical, technical, mental, and physical area
